

Surefox®

Enterprise Secure Browsing Solution

Supported Platforms

SureFox - Enterprise Secure Browsing Solution

SureFox by 42Gears is a secure browser lockdown solution that creates a safe and secure browsing environment on mobile devices and desktops. With SureFox, you can instantly turn your Android, iOS, or Windows mobile devices into web kiosks and data collection terminals.

Key Features

Website Management

SureFox allows browsing of admin approved websites and webpages that are required by the users.

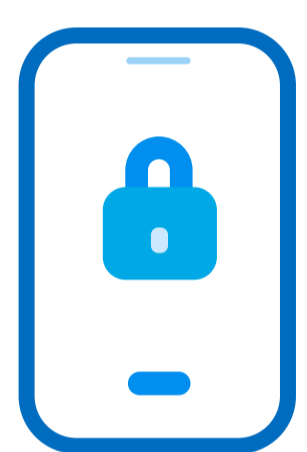

Device Security

To prevent a user from tampering with Android devices, SureFox restricts access to all blocked apps, device settings, and lockdown settings.

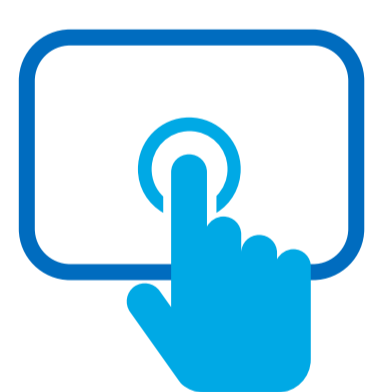

Auto Lockdown Configuration

Without physically connecting to devices, import/export from the SureFox cloud server to configure device lockdown settings and schedule auto-updates of SureFox configuration.

Restrict Hardware Keys

Disable external hardware keys of mobile devices including volume and power buttons.

Kiosk Security

Disable the status bar/bottom bar to restrict quick access to notifications, recent apps, and settings.

Customizable UI

Set up wallpapers, screensavers, icons, title bar, and more to personalize the look and feel of the web kiosk.

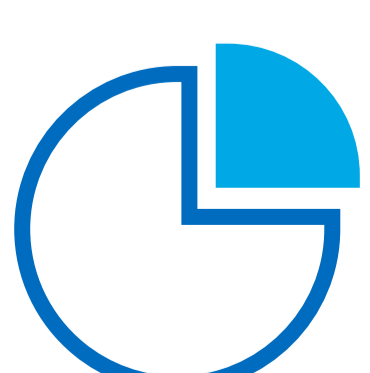

Auto-Launch Websites

Set a website to launch automatically whenever a device is switched on or rebooted.

Content Filtering for Selected Websites

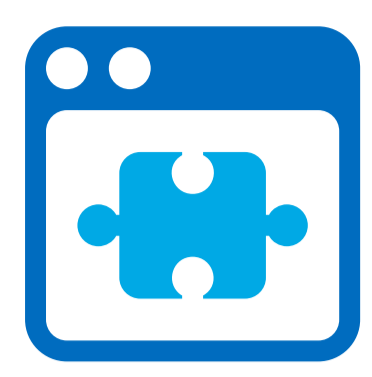

Admins can block access to web pages containing restricted keywords.

SureFox Analytics

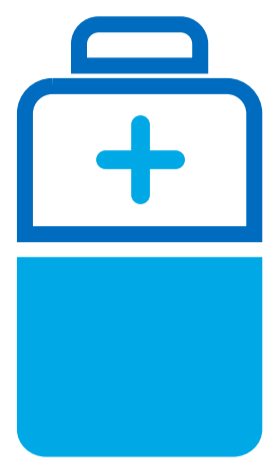

Get insights of approved websites usage and the session duration. Export these reports to your email, SureMDM console, or save as local files.

SureFox - Enterprise Secure Browsing Solution

Compatibility with SureMDM and SureLock

- ▶ SureFox can be remotely installed, configured, and managed with SureMDM's built-in option.
- ▶ SureFox is now integrated with SureLock, 42Gears' Enterprise Kiosk Lockdown Solution; no separate installation or license is required.

Battery Saving Features

When the battery level falls below the set battery percentage, battery-saving features such as auto-brightness adjustment, brightness on battery level, and so on can be enabled with SureFox.

PDF Viewer

Use the in-built viewer to open and read PDF files.

Tabbed Browsing

Access multiple websites from different tabs in a single window.

Private Browsing

Enhance privacy and browse without saving any information on the website's history.

Offline Activation

Activate SureFox offline using device details like IMEI, Wi-Fi MAC, and GUID.

Why choose SureFox?

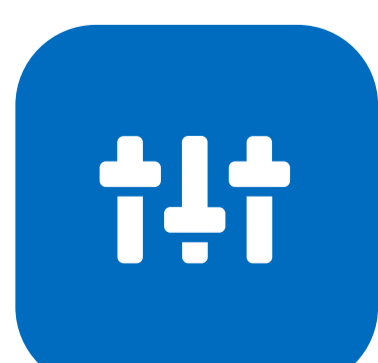

Cloud Support

SureFox enables import and export of lockdown settings to a secured cloud for easy mass configuration and deployment.

Multi-Purpose

Choose a single website or multiple websites to turn your Android, iOS or Windows mobile devices into web kiosks within minutes.

Product Customization

Quick turnaround on feature and customization requests.

Time-Saving

Skip the need for in-person updates by setting up auto-configuration of device and lockdown settings.

Cost-Effective

SureFox's integrations with SureMDM and SureLock provide additional benefits without the need to purchase them.

Real-Time Support

24/7 real-time technical support via call/chat/email/ticket.
