

SureIdP by 42Gears

Secure Every Login. Protect Every Device.

Do you know what is the weakest link in your security chain?

Human factors and inadequate access controls.

- ▶ **60%** of data breaches originate from human error
- ▶ **22%** of security incidents stem from compromised credentials
- ▶ The financial impact averages **\$4.45 million** per breach

Disconnected identity and device management systems leave your organization exposed to breaches. Manual onboarding, unmanaged devices, and overlooked offboarding create security gaps, while your IT team drowns in repetitive, manual tasks.

Your Workforce Security Gap Has a Fix: Identity Management + Device Management

SureIdP is a robust, Zero-Trust Identity & Access Management Solution from 42Gears that unifies identity, access, and device management.

Automate Identity and Access Management with SureIdP

Streamline Onboarding

- ▶ Create hundreds of accounts and enroll devices in minutes
- ▶ Ensure secure authentication with MFA, SSO, and OS login

Automate Device Lifecycle Management

- ▶ Lock access to assigned devices with device binding
- ▶ Share devices between shift workers with personalized logins
- ▶ External identity federation with Okta, Google Workspace, Entra, and any SAML 2.0 IdP

Offboard Effortlessly

- ▶ Instantly revoke access across apps and devices
- ▶ Auto-reset devices, return them to inventory, and eliminate credential risks

Why Choose SureIdP

- ▶ **Single Pane of Glass Solution** – Unified identity, device, app, and data management
- ▶ **Zero Trust Ready** – Enforce zero-trust identity-based access with faster onboarding and hasslefree offboarding
- ▶ **Built for Scale** – Deep SureMDM integration without the need for extra infrastructure
