

SureMDM Hub

Multi-Tenant MDM for Resellers and Managed Service Providers (MSP)

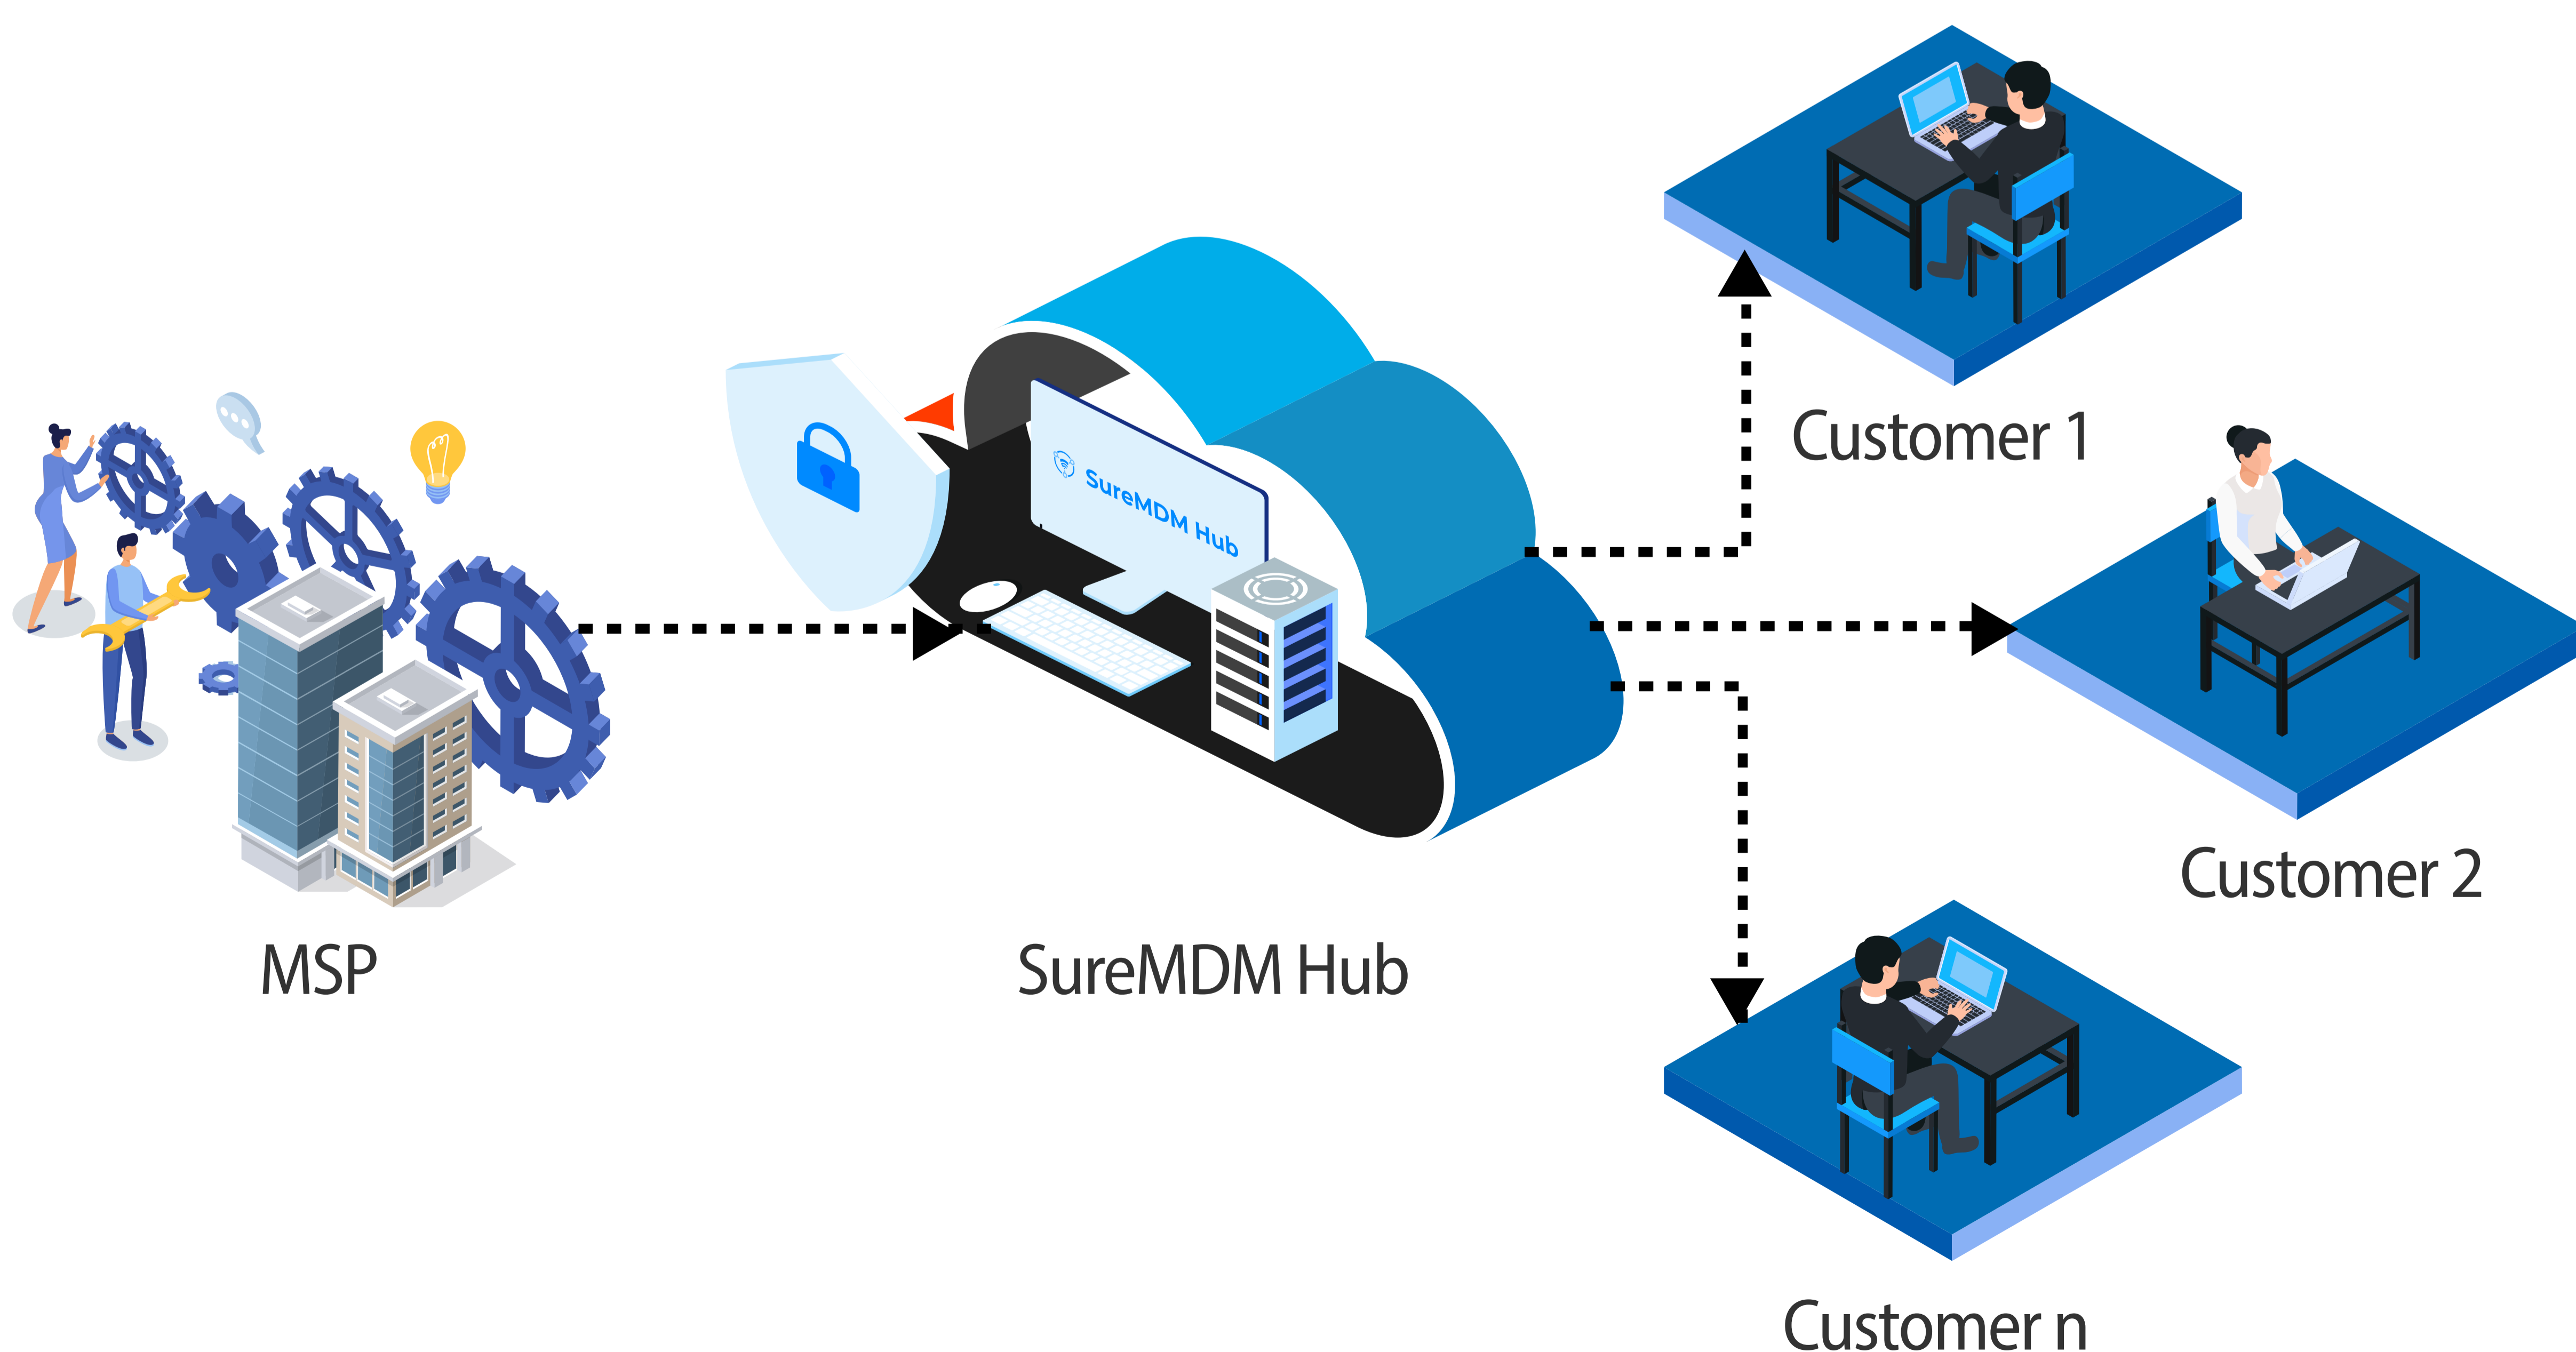

Resellers and MSPs often have to create and maintain separate MDM accounts along with separate login credentials to manage different customers. With SureMDM Hub, MSPs and Resellers now have a single backend to give each customer their own private, secure, and logistically-isolated SureMDM instance. The solution is available as on-premise and SaaS deployments.

How it Works

SureMDM Hub's multi-tenant licences can be distributed through a **Multi-Tenant Single-Tier** or **Multi-Tenant Multi-Tier** model.

- ▶ **Multi-Tenant Single-Tier:** Each customer under a Managed Service Provider or Reseller uses the same SureMDM licence tier (Standard, Premium, or Enterprise).
- ▶ **Multi-Tenant Multi-Tier:** Different customers under a Managed Service Provider or Reseller use different SureMDM licence tiers split between Standard, Premium, and Enterprise.

Key Features

- ▶ Easily create new customer instances and manage license types for each tenant.
- ▶ Centralize license allocation and management for every SureMDM instance.
- ▶ Track licenses, allocations, and expiry dates with the License Management Report. Set alerts for low usage and renewals.
- ▶ Customize logos, login screens, and email templates to white label the console for a personalized user experience.
- ▶ Create unique email variations that simplify email ID management and streamline email communications.
- ▶ Perform troubleshooting and maintenance using Single Sign-On (SSO) by logging into each customer's instance as needed.
- ▶ Add your brand logo and text to your Hub console to reflect your unique branding.
- ▶ Get instant insights into device OS platforms, online/offline status of devices, job status, and more with the Hub dashboard.

Benefits of SureMDM Hub licensing

Flexible Deployment:

Deploy Cloud or On-Premise based on your requirements.

Security:

Offer industry-leading capabilities for security, configuration, customisation, and access control.

Minimal Upkeep:

Manage multiple customer tenants from a single admin console while isolating each customer's data.

Cost Savings:

No setup costs using the SureMDM Hub Cloud version.

Distribution & Management:

Quickly distribute and manage licences across tenants.

Quick Updates:

Make new features available to all tenants at once.
