

SureMDM®

Secure. Monitor. Manage.

Supported Platforms

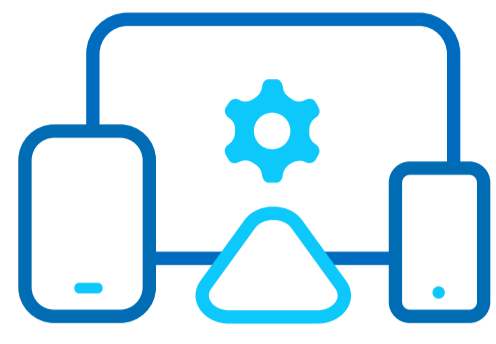

SureMDM by 42Gears is a powerful, multi-OS Unified Endpoint Management (UEM) solution that helps IT teams manage and secure all devices, including Android, iOS/iPadOS, Windows, Linux, macOS, ChromeOS, tvOS, Wear OS, VR, and IoT. With SureMDM, you can deploy devices, monitor performance, troubleshoot issues remotely, and protect your data—all from a single, easy-to-use console.

Key Features

Express Enrollment

Enroll and set up devices in SureMDM quickly and easily via multiple enrollment methods.

Centralized Management

Effectively manage all your devices and get device-related information you need to make informed decisions with SureMDM centralized console.

Robust Remote Control

Easily manage any device remotely with remote screen viewing, multi-admin remote control, two-way calling (admin & end-user), remote file transfer, and unattended access. For Intel vPro® devices, perform out-of-band management using Intel AMT.

Android Enterprise and Apple Business Manager Support

Set up, configure, and deploy corporate-owned Android and Apple devices right out of the box.

Flexible Mobility Strategy

SureMDM supports multiple mobility strategies like COD, BYOD, CYOD, and WPCO to enable the modern-day workforce by combining flexibility with IT control.

Secure and Manage BYOD Devices

Separate corporate apps from personal-use apps, enforce rigorous password policies, and push content, applications, and identity certificates over-the-air on BYOD devices.

Monitor and Reinforce Responsible Device Behavior

Automatically activate policies based on time, location, or a device's current Wi-Fi network. Remotely lock, reboot, or wipe devices for precise control and security.

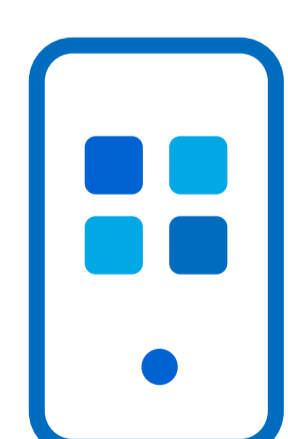

Advanced Analytics and Data Visualization

Get a graphical view of device details, status, alerts, and notifications. Monitor non-compliant devices and visualize data by customizing reports as per requirements.

Alerts and Notifications

Send alerts and messages from the SureMDM console using the built-in messaging app.

Mobile Application Management

Bulk-purchase and distribute apps from the central console directly to enrolled devices with Apple Business Manager, Microsoft Store, Google Play Store, and SureMDM App Store.

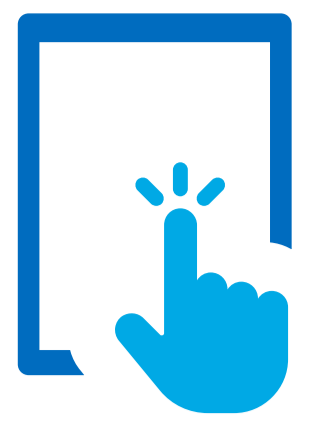

Mobile Email Management and Microsoft 365 Support

Define and enforce security compliance policies and secure Microsoft 365 apps and corporate emails.

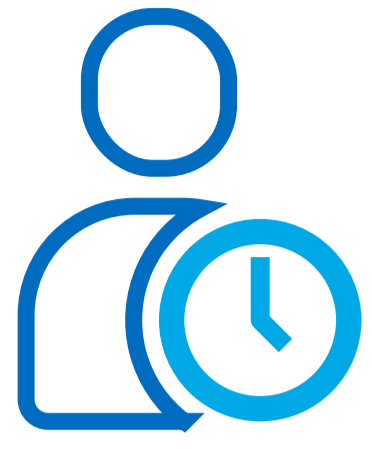

Patch Management

Proactively manage patches and OS updates to protect devices from the latest known vulnerabilities.

Kiosk Management

Lock down devices to essential apps and websites to reduce distractions, boost productivity, and prevent tampering. Turn any device into digital signage to deliver targeted content that captures customer attention.

Just-in-Time (JIT) Admin

Enable IT teams to grant temporary, time-bound elevated privileges to users only when needed, enhancing security while maintaining visibility and operational flexibility.

Things Management

Harness 42Gears Things Management Technology to monitor and manage peripheral devices like printers, batteries, cradles, and Internet of Things (IoT) devices from the SureMDM console.

VR Device Management

Secure VR devices in kiosk mode, enable silent app installation, troubleshoot remotely with screen sharing, and transfer files remotely.

Mobile Threat Defense

Use MTD to protect your Android devices from various app-based threats. Configure and push Microsoft Defender Antivirus policies on enrolled Windows devices.

Self Service Portal

Empower device users to perform basic device management tasks, troubleshoot, and resolve issues, thereby reducing the number of support requests.

SureAccess: Zero Trust Network Access

Securely connect managed devices to corporate resources with Zero Trust Network Access.

SureMDM InLocate: Indoor Location Tracking

Precisely track and locate enrolled devices in real-time within your facility.

SureIDP: Zero Trust Identity & Access Management

Securely manage user identities, control access to resources, and enforce Zero Trust authentication policies across devices and apps.

Why choose SureMDM?

- ▶ **Industry-Leading Expertise:** SureMDM is an Android Enterprise Recommended Enterprise Mobility Management solution and a Gold partner in the Android Enterprise Partner Program.
- ▶ **Single Pane of Glass Solution:** Secure, monitor, and manage multiple endpoints from a centralized console.
- ▶ **Reduced IT Burden:** Save IT time and effort with remote configuration, self-service portal, policy deployment, and app installation.
- ▶ **Adherence to Compliance:** Effortlessly enforce device security policies and data protection standards.

- ▶ **Agility and Scalability:** SureMDM ensures unlimited scalability and business agility. We offer a common agent for SaaS and On-premise.
- ▶ **Bespoke Product Customization:** Quick turnaround on feature and customization requests.
- ▶ **Customer Satisfaction:** Consistent CSAT score of over 95% reflects commitment to unparalleled customer experience.
- ▶ **High-touch White-glove Technical Support:** Experience real-time technical support 24x7 to ensure uninterrupted IT operations.
- ▶ **Value for Money:** Realize a 25X ROI and spend 60% time savings by managing your device ecosystem with SureMDM.
